Date

All exhibitors/trade stands are responsible for the safety of their own stands and the risk that they may pose to other persons within the allocated space or immediate surrounding areas. They must ensure they have complied with all statutory legislation regarding testing of equipment (including their own fire extinguishers), training of staff and erection of equipment. No exhibitor will be allowed to dismantle his/her stand while show jumping is in progress. These requirements will be monitored by the Health and Safety Steward and the Organiser. The exhibitors/trade stands are responsible for all product liability in line with their statutory duties under trade description legislation. Trade stands selling or sampling food and/or drink must be aware of and comply with all food hygiene and safety regulations. It is recommended by British Eventing that all Trade Stand owners ensure they are covered under their own Third-Party insurance for any foreseeable risks.
